Direct Registration System Transformation (DRS)

On November 21, 2024, through Important Notice B#21022-24, The Depository Trust Company ("DTC") announced its next phase of DTC's multi-year, multi-phase Securities Processing Transformation program, Direct Registration System ("DRS") transformation.

The transformation of the DRS system, pending regulatory approval, includes DRS Transaction Processing and DRS Centralized Billing.

DRS Profile Deposits, DRS Withdrawal by Transfer and DRS Centralized Billing will transition to the SPA system on November 13, 2026.

DRS Centralized Billing

DRS Reject Centralized Billing is being expanded to include centralized billing for DRS Profile Deposits, DRS Deliver Orders ("DO's") and DRS Withdrawal by Transfer transactions and will become a mandatory use service, on the SPA system.

These fees are currently invoiced by FAST transfer agents to Participants outside DTC. The expansion will digitize collection and remittance and reduce the operational burden of manual invoicing.

FAST transfer agents will be required to establish their fees on SPA prior to DRS processing transitioning to SPA. Please enter all DRS fees by November 5th, 2026.

How it works

Entitlements

Obtain the DRS Centralized Billing user entitlements.

Access and entitlements to the SPA system must be provisioned by the user's designated Super Access Coordinator ("SAC"). If SACs have any questions about how to provision access through the DTCC Portal in the Customer Registration System (CRS), they can email DTCIntegration@dtcc.com for assistance.

DTCC offers enhanced access to all important notices via a Web-based subscription service. The notification system leverages RSS Newsfeeds, providing significant benefits including real-time updates and customizable delivery. To learn more and to set up your own DTCC RSS alerts, visit http://www.dtcc.com/subscription_form.php.
